Jonathan's History

New England's Pioneer Sprout Company

We're the oldest and the best with an unsurpassed reputation for quality, service and dependability. Since March 17, 1976 we have built our reputation through continued personal contact with our customers, standing steadfastly behind our quality products and offering support and education.

Success

We have grown from a small, three-person company to state of the art and stainless steel production equipment. From 17 bags of alfalfa sprouts a week, to selling an average over 7000 cases or 10 tons of more than 20 products weekly.

Hands on work

We inspect and package all products by hand. We monitor a HACCP program and thorough lab testing. Twenty full and part time workers plant, harvest, and package 7 days a week.

Organic

Whenever there is quality organic seed available, Jonathan's products are all organically grown.

Industry

Jonathan's founded the New England Sprout Growers Association, which, in 1990, seeded the International Sprout Growers Association (ISGA). Jonathan's is a founding member of and has served on the board of Directors of the ISGA since its beginning, serving as President, Treasurer and chair of the Research and Sanitation Committees. Currently Jonathan's CFO, Barbara Sanderson is serving as Chair of the Sprout Safety Task Force which is working with FDA, USDA, scientists and industry to create the Sprout Specific Food Safety Audit which will be audited by the USDA. Jonathan's President, Bob Sanderson, is currently serving as President of the ISGA.
